

2021

INTERNATIONAL CONFERENCE ON

SOLID STATE DEVICES AND MATERIALS

Sep. 6-9, 2021
Sapporo Convention Center

Scope of Conference

- 1 Advanced CMOS: Material Fundamentals / Process Science / Device Physics
- 2 Advanced and Emerging Memories / New Applications
- 3 Interconnect / 3D Integrations / MEMS
- 4 Power / High-speed Devices and Materials
- 5 Photonics: Devices / Integration / Related Technology
- 6 Photovoltaic / Energy Harvesting / Battery-related Technology
- 7 Organic / Molecular / Bio-electronics
- 8 Low Dimensional Devices and Materials
- 9 Novel Functional / Quantum / Spintronic Devices and Materials
- 10 Thin Film Electronics: Oxide / Non-single Crystalline / Novel Process
- 11 Advanced Materials: Synthesis / Crystal Growth / Characterization
- 12 Advanced Circuits / Systems Interacting with Innovative Devices and Materials

Paper Deadline

Regular

May 12, 2021

Conference Chairs

Organizing : **T. Hashizume** (Hokkaido Univ.)

Program : **Y. Miyamoto** (Tokyo Tech)

Steering : **J. Motohisa** (Hokkaido Univ.)

Sponsored by

THE JAPAN SOCIETY OF APPLIED PHYSICS

Secretariat-SSDM
